Révész Group

COMPANY INTRODUCTION

The Révész Group

provides complex freight forwarding and logistics services as an active part of our partners' logistics supply chain.

With four decades of experience

and the know-how that comes from it, we provide our customers with the optimum vehicle combination for transporting almost any type of goods.

The close links between the companies in the Group

allow us to constantly expand the range of services we offer. We offer complex solutions for our partners and serve the most diverse customer needs in the shortest possible time.

Each member of the Group

is expanding its fleet with state-of-the-art vehicles and using the latest equipment to serve its partners, in line with the highest environmental standards.

The management and quality assurance system of the Group of companies

meets today's most stringent standards and customer requirements.

FREIGHT FORWARDING AND LOGISTICS

The Révész Group is one of the 3 largest road freight transport operators in Hungary and one of the most significant players in the silo freight transport in Central Europe, and is also making significant logistics investments.

The Group consists of 30 companies, the backbone of which are Révész Logisztikai Holding Zrt., Révész-Nyírlög Kft., Lerton Trans Kft. and Révész Trans Kft. These companies generated a steadily growing turnover of HUF 27 billion in 2021.

REAL-ESTATE

The Révész Group has a diversified real-estate portfolio, including also hotels, buildings of historic importance, industrial and residential properties.

The Group of companies currently owns several project companies.

Part of the portfolio is an independent building industry corporation.

SPORTS AND SOCIAL RESPONSIBILITY

The Révész Group believes in corporate social responsibility and feels the need to support organisations that play a social role.

This has led to the implementation of projects to support sporting activities from amateur to elite level, helping schools, cultural institutions and people in need.

Révész Group

Although the main activity of the Révész Group is focused on road freight transport and full logistics services, its portfolio of interests is diversified.

The founding owner

Bálint Révész built up one of Hungary's most important logistics groups, the Révész Group, as a private entrepreneur.

“It’s vital to maintain excellent relations with your customers and employees, whatever the size of your business.”

Bálint Révész

The Révész Group is one of Hungary’s leading logistics service providers.

The history of the company dates back to the early 1980’s. The former private haulier – Bálint Révész – laid the foundations of his current large enterprise during this period.

By the end of the 1990’s, the Group was one of the leaders in the Hungarian market for curtainsiders, both in terms of the number of transport vehicles and sales turnover. Its specialised transport division (silo, chemical goods, liquefied petroleum gas) is a leader in the Hungarian market, but is also one of the largest in Central and Eastern Europe.

1980

Bálint Révész lays the foundations of the current Révész Logisztikai Holding Zrt. as a private carrier.

1990

By the end of the 1990's, the Group was one of the market leaders in the curtainsider carriage of goods. The current flagship of the Group, Révész Trans Kft. was also founded at the end of this decade.

2000

In the 2000's, the curtainsider transport business of Révész Eurotrans Kft. was sold and later rebuilt with the acquisition of Lerton Trans Kft. In the same decade, its activities were diversified and a specialised transport division was set up.

2010

The portfolio has grown by more than 100,000 m² of warehouse space. The Group entered the passenger car and heavy vehicle transport segment, and the silo business was expanded with the acquisition of T+F Kft.

2021

Today, Révész Logisztikai Holding Zrt. is the second largest group of companies in the sector in Hungary, providing services in 6 different segments of freight transport with its fleet of more than 550 tow trucks. The Holding's portfolio includes 8 additional logistics and warehousing services.

History

Key segments

We specialise in the transport of goods in silos and curtainsiders, and our service portfolio also covers three other specialised segments of transport.

43%

BULK-SILO TRANSPORT

The bulk-silo segment accounts for 39% of the Group's mileage, with nearly 25 million annual kilometres. We serve our customers with 175 tow trucks and 200 trailers from two locations – in Tiszaújváros.

27%

CURTAINSIDER

Over the past two years, we have doubled our presence in the curtainsider freight forwarding business – both in terms of fleet size and performance, to more than 13 million kilometres per year in 2022. Currently, we have 120 tow trucks and 182 trailers at our customers' disposal, and the headquarters of the business unit is located in Nyíregyháza.

20%

CHEMICAL INDUSTRY

The transport of chemical industry materials is the third largest segment of the Group, with an annual volume of nearly 11.5 million kilometres. We transport liquid chemicals with 115 tank-equipped semi-trailers and 82 tow trucks, and our key customers are MOL and BorsodChem.

10%

GAS

Within the framework of the gas business, we perform the transportation of sanitary and industrial liquefied gases for Messer Hungarogáz Kft., with a total performance of more than 4 million kilometres in 2022. We currently have 32 trailer trucks and 55 trailers at our customers' disposal. The business is headquartered in Budapest.

Complete logistics services

ROAD FREIGHT TRANSPORT

More than 500 combinations of vehicles ensure that we can meet almost all our customers' transport needs. Our transport businesses provide flexible solutions for our customers. Our aim is to get the job done accurately, safely and with maximum efficiency, whatever the nature of the goods.

- **Transport of bulk goods (silo products)**
- **Transport of liquid products of the chemical industry**
- **Specialised transport of gaseous products**
- **Transport by curtainsiders**
- **Passenger transport**
- **Cargo tracking**

CUSTOMS BROKERAGE

The staff of the customs brokerage agency have many years of experience in customs clearance, within the framework of which they carry out customs and customs-related tasks. We have all the necessary licences and guarantees for customs brokerage activities. In addition to standard and simplified customs clearance, we also provide our customers with bonded warehouses and tax and temporary storage warehouses.

WAREHOUSING AND LOGISTICS SERVICES

From warehousing to distribution logistics, we offer a variety of customised solutions. The Révész Group owns more than 100,000 square metres of warehouse space. Our largest logistics centre is located in Nyíregyháza, right next to the M3 motorway. Here, a warehouse complex of more than 52,000 square metres has been built to provide customers with state-of-the-art warehousing solutions.

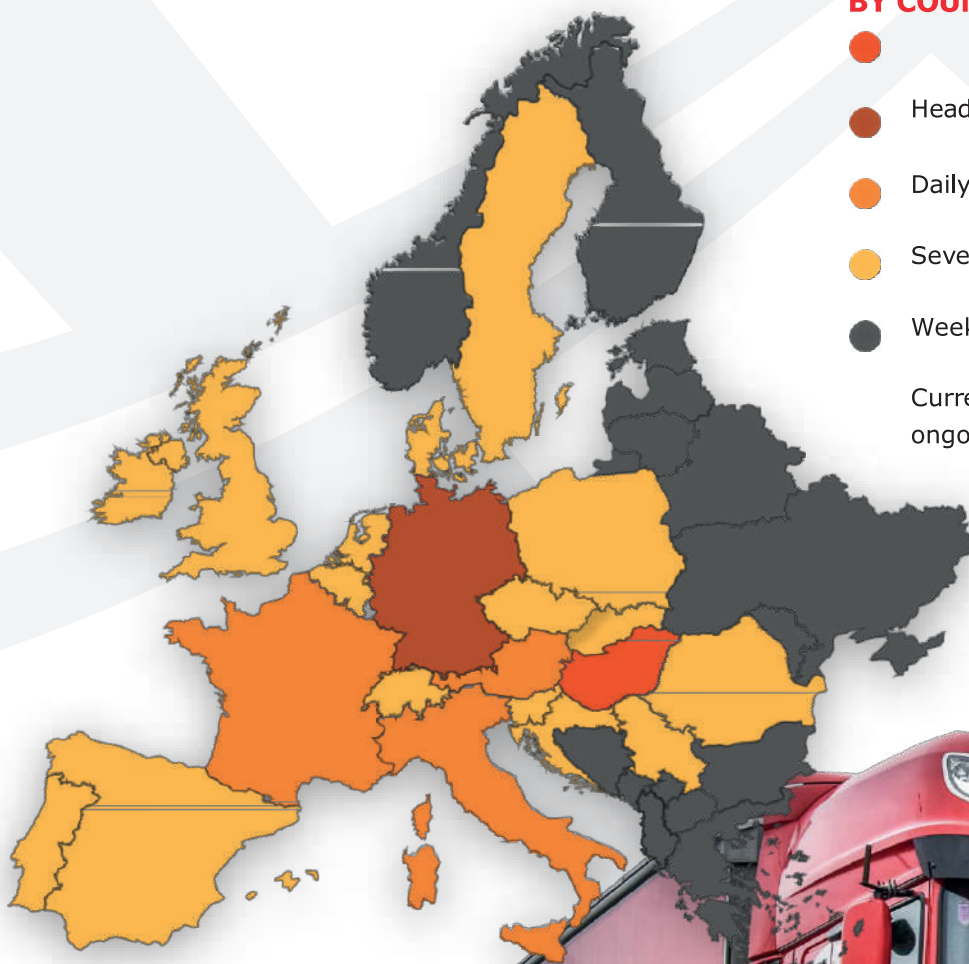

Our activities

Our activities are concentrated in five main locations in Hungary, but our operations extend across Europe, with a focus on the needs of our partners.

SERVICES

The Révész Group in figures

The best indicator of the development of the Révész Group is the figures, which are constantly increasing in proportion to the number of satisfied partners. More than 800 colleagues are constantly working to ensure that our new and existing partners receive a quality service.

Quality Assurance

We strive to meet all the necessary quality requirements and support our transport and warehousing activities with the widest possible portfolio of services.

Our own DAF service

bases guarantee the reliable operation of our vehicles.

Our **experienced drivers** will deliver your cargo to your destination on time.

Révész Group's **quality assurance** and **environmental management** system.

Washer, silo

vehicle combination cleaner operation.

With the **DAF European Service Network** we are safe wherever we go.

ESTABLISHMENT OF AN APPROPRIATE QUALITY ASSURANCE SYSTEM

Our quality management system is developed according to ISO standards, and our certifications cover both environmental and quality management standards, ensuring the highest possible quality of transport and warehousing services for our partners.

ENSURING QUALITY OF SERVICE

The operation of our quality assurance systems and compliance with requirements are constantly monitored and analysed by our experts, who take immediate action to correct any errors. Our presence in the specialised and premium freight forwarding segment is an excellent reference for the quality of our service.

CONTINUOUS DEVELOPMENT

Our clients regularly conduct supplier audits, so all aspects of our quality system need to be up to date and are constantly re-audited and improved as required.

Corporate social responsibility

SUPPORT FOR LOCAL SPORTS ORGANISATIONS

We feel a responsibility to **invest part of our success in health and sports activities**, thereby serving our communities in Hungary and beyond.

We are key supporters of the **Spartacus Football Club of Nyíregyháza**, the József Bozsik Football Academy, and the **Spartacus Gymnastics Club**, which provides basic and junior gymnastics and aerobics training. We are founders of the now two-time European champion **Révész Racing** technical sports team.

SUPPORT FOR EDUCATIONAL AND CULTURAL ORGANISATIONS

Our mission also includes wider support for local communities through the **support for cultural and educational organisations**. In doing so, we not only ensure the sustainability of the organisations we support, but also bring together the diverse members of our community.

Among the cultural organisations supported are the **Cantemus Choir** and the **Zsigmond Móricz Theatre** in Nyíregyháza.

HELPING THOSE MOST IN NEED

In addition to our business activities, we recognise the importance of the work of humanitarian organisations that share our values. That's why, over the past decade, we have focused on supporting organisations with a noble mission. We focused our attention on supporting the recovery of disadvantaged children and children hindered in their healthy development, and on alleviating the situation of disadvantaged women in Hungary and beyond.

Supported organisations include the **Rotary Club** World Organisation, the **Please Help! Foundation** and the **Everything for Women Foundation**.
